- ✓ Stoves
- ✓ In-floor Radiant Heating Systems

PSD010B & PSD010BF DIGITAL THERMOSTATS FOR HEAT-ONLY SYSTEMS

Introducing the PSD010B and PSD010BF, two new thermostats from LuxPro® that are the perfect controls for heating-only systems such as fireplaces, pellet burning stoves, wood burning stoves, coal burning stoves and in-floor radiant heating systems. The PSD010B and PSD010BF offer digital accuracy, 24V or millivolt compatibility, large easy-to-read backlit displays, and are battery powered (no hardwiring required!). Just as important, these new thermostats are easy to install for quicker job turnovers, simple to operate for reduced customer call-backs, and are priced for better profitability.

LuxPro® is dedicated to bringing you the best thermostats today and well into the future. Our line of over thirty programmable, digital and mechanical thermostats is designed to give you innovation, incredible value and support. Simply put, LuxPro® thermostats do more and cost less so that you can make the most of your thermostat business.
